Revised date : 01/04/2026

UNIVERSITI TEKNIKAL MALAYSIA MELAKA

FAKULTI TEKNOLOGI DAN KEJURUTERAAN ELEKTRONIK DAN KOMPUTER

PSM 2 GENERAL CONDUCT EVALUATION FORM (SUPERVISOR)

NAME OF STUDENT			
STUDENT MATRIX NO.		ACADEMIC SESSION	
DEPARTMENT / COURSE			
TITLE OF PROJECT			
NAME OF SUPERVISOR			

GENERAL CONDUCT (CLO2, PLO4)

CLO2 : Complete planned project systematically. PLO4 : Ability to plan and conduct experimental investigations of broadly-defined problems, using data from relevant sources.	MARK
Project Planning (P3, SK8, SP2, Weightage: 0.25)	
Excellent ability to determine correct procedures against ***conflicting constraint*** for investigating the problems.	4
Moderate ability to determine correct procedures against ***conflicting constraint*** for investigating the problems.	3
Poor ability to determine correct procedures against ***conflicting constraint*** for investigating the problems.	2
Very poor ability to determine correct procedures against ***conflicting constraint*** for investigating the problems.	1
No ability to determine correct procedures against conflicting constraint for investigating the problems.	0
Project Execution (P4, SK8, SP1, Weightage: 0.5)	
Shows excellent ***knowledge*** of technological application to perform the experiments/simulations with minimal supervision.	4
Shows fair ***knowledge*** of technological application to perform the experiments/simulations with frequent supervision needed.	3
Shows minimal ***knowledge*** of technological application to perform the experiments/simulations with frequent supervision needed.	2
Shows very limited ***knowledge*** of technological application to perform the experiments/simulations with constant supervision needed.	1
Not able to perform the experiments/simulations without assistance and supervision.	0

Result and Analysis (P4, SK8, SP1, SP3, Weightage: 1)	
Excellent ability to ***interpret*** the experimental/simulation results and to present ***in-depth*** analysis.	4
Moderate ability to ***interpret*** the experimental/simulation results and to present ***in-depth*** analysis.	3
Poor ability to ***interpret*** the experimental/simulation results and to present ***in-depth*** analysis.	2
Very poor ability to ***interpret*** the experimental/simulation results and to present ***in-depth*** analysis.	1
No ability to ***interpret*** the experimental results and to present ***in-depth*** analysis.	0
Project Accomplishment (P5, SK8, SP1, Weightage: 0.75)	
Project accomplished outstandingly according to the specified objectives and scope of work with extra achievement **(publication in journal/conference indexed/non indexed and/or participation in any innovation competition).**	4
Project accomplished according to the specified objectives and scope of work.	3
Project fairly accomplished according to the specified objectives and scope of work.	2
Project accomplished partially according to the specified objectives and scope of work.	1
Project is not accomplished.	0
TOTAL	

GENERAL CONDUCT- ETHICS (CLO4, PLO8)

CLO4 : Display professional ethics and responsibilities in the execution of the project. PLO8 : Ability to demonstrate an understanding of professional ethics, responsibilities and norms of engineering technology practices.	MARK
Ethics (A5, Weightage: 1.25)	
Displays excellent professional ethics in the execution of the project	4
Displays good professional ethics in the execution of the project	3
Displays moderate professional ethics in the execution of the project	2
Displays poor professional ethics in the execution of the project	1
No professional ethics in the execution of the project	0
Responsibilities (A5, Weightage: 1.25)	
Displays excellent professional responsibilities in the execution of the project	4
Displays good professional responsibilities in the execution of the project	3
Displays moderate professional responsibilities in the execution of the project	2
Displays poor professional responsibilities in the execution of the project	1
No professional responsibilities in the execution of the project	0
TOTAL	

COMMENTS			
APPROVED BY SUPERVISOR (Signature & Official Stamp)		**DATE**	

*Broadly-defined engineering problem (SP) characteristic from a single CLO must have SP1 and 2SPs from SP2-SP7 : SP1, SPx, SPx.

Broadly Defined Engineering Problems (SP)	
SP1	Depth of knowledge
SP2	Conflicting requirement
SP3	Depth of analysis
SP4	Familiarity of issues
SP5	Extent of applicable codes
SP6	Extent of stakeholder involvement & level of conflicting requirements
SP7	Interdependence
